Making Places for "Rapscallions and Carpetbaggers."

WASHINGTON, April 26 .- Mr. Carmack of Tennessee, in the Senate to-day completed the speech on the Philippine government which he began yesterday. He continued his exceedingly caustic criticism of the administration's policy and the ultimate end to which it would lead, concluding by expressing the hope that the administration would turn from "the bloody gospel of the strenuous life" to the paths of peace. He read Professor Schurman's criticism of the bill to show that Professor Schurman believed the Philippine government should be number of senators are working to secure | administered for the Filipinos. From the very outbreak of hostilities in the Philippines, the senator declared, there had been a systematic concealment of the truth which was now coming out. It was now known, he said, that 100,000 people had perished in a single province containing 300,000 inhabitants, and yet the people of the United States knew nothing of it until recently. The civil government established by this bill, he predicted, would result in ever-recurring insurrection to be put down by our blood and treasure. What for? He asked Mr. Lodge if the amendment would be agreeable to him. "I cannot speak for the committee," replied Mr. Lodge. "For myself it is perfect-

Mr. Carmack also gave notice of another amendment he would offer to prohibit the entry of the Philippines as States in the Union, and asked for Mr. Lodge's opinion, but the latter declined to reply categoricalsaying he would answer in his own time, in his own way. But Mr. Dolliver, of Iowa, asked Mr. Carmack to define his own position, having first inveighed against holding the islands in "perpetual despotism" and being now solicitous lest they be admitted

Mr. Carmack responded that his own position was clear. While the carpetbaggers and adventurers were plundering and getting control of the islands, he said, the government provision in this bill would be just what they wanted. When they had everything they wanted, he said, they would clamor for American markets and American statehood.
